What's New

Our formal presentations of the CERT course will end with the class on December 7. There are hands-on components which we will undertake perhaps in February, after the holiday festivities. There are too many things happening in December and January.

I'll keep everyone informed.

Emergency Preparations

Early in the new year, I would like us to formulate emergency procedures for CERT in the event of a disaster.

I am especially interested in emergency communications, an important component of Disaster preparations.

One of the main goals of seeking IRS 501(c)(3) will be to solicit funds to purchase new communications equipment. Our second goal will be to continue our training in emergency preparations, especially with hands-on procedures.

We will revisit and revise our phone tree plan and devise communications procedures. I am asking our local amateur radio personnel if they would be interested in working with us in working out a communications plan.

CPR

We will seek the assistance of Chief Hinckley perhaps in the Spring to provide another CPR session. Those interested, who were unable to attend our past session, let me know. I'm sure we can find an agreeable date and time learn and practice this important skill.

Vice President

Due to circumstances beyond her control, our Vice President has resigned. We will need a volunteer replacement when we submit our annual list of officers to the State of Nevada.

Presentations

Since we are about honing our skills in emergency preparedness, anyone interested in giving a presentation at any of our meetings on a particular area of emergency preparations will be welcome.

Each of us has a wealth of knowledge and background that will be of immense support of our efforts. So, feel free to let me know how you can contribute.

We are also open to suggestions on topics of general interest that will be helpful to us in carrying out our charter of being prepared for emergencies.

Meeting Date & Time

If you have any suggestions for a different day and time for our meetings, we're open to discussing this. Some may find it hard, especially in Winter to attend meetings in the evening.
